SECTION 2: LIMITATIONS	

LIMITATIONS

A. Do not pay TDAP to an individual:

1. Who is in receipt of benefits from other government cash assistance programs at the time of application for TDAP;
2. Who lives with a needy minor child as a caretaker relative and meets technical eligibility for Temporary Cash Assistance (TCA). They are potentially eligible for TCA.

B. Do not pay TDAP to an otherwise eligible individual unless he or she:

1. Agrees to pursue other sources of income and resources;
2. Signs an Interim Payment Reimbursement Authorization if applying for SSI benefits,
3. Participates in required rehabilitation activities as described in Section 3 of this Chapter; and
4. Provides a Social Security number or applies for one (see Section 3).

C. Do not pay TDAP to an otherwise eligible individual for more than 9 months in a 36-month period unless the individual:

1. Has been certified as medically disabled by the SRT applying federal SSI standards
2. Has been accepted by DEAP which continues to pursue the case; and
3. Has a pending application for SSI or SSDI that has not been withdrawn or finally denied.

Example:

Mr. S. has a medical form stating that he is disabled 9 months due to a broken hip. The local department determines him eligible for TDAP Type 1 and certifies him for 9 months only. Mr. S's hip has not fully healed, so he has reapplied for TDAP after the 9-month certification is closed. However, he submits a new 402B medical form that indicates Mr. S needs an additional 2 months of healing before returning to work. Deny TDAP eligibility for a new period.
