**RE:** P-TRACK ELIGIBILITY TESTING FOR CHILDREN UP TO 21  
AND PREGNANT WOMEN IN THE FORMER X01 COVERAGE GROUP

**PROGRAMS AFFECTED:** MEDICAL ASSISTANCE (MA)  
MARYLAND CHILDREN'S HEALTH PROGRAM  
(MCHP)

**ORIGINATING OFFICE:** OFFICE OF ELIGIBILITY SERVICES

### **BACKGROUND:**

The Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA) gives states the option to furnish federal CHIP and MA to pregnant women and children who are lawful permanent residents with less than 5 years continuous residency in the U.S. As a result, Action Transmittal 10-14 established the elimination of the X01 coverage group and the practice of establishing eligibility for the affected qualified alien group in the appropriate Maryland Children's Health Program (P-Track) coverage groups. In practice, DHMH has become aware that this group is also being tested for eligibility in the Medical Assistance for Families (MA4F/F05) coverage group. This has resulted in eligibility being granted for household members who do not fit the category definition.

The CHIPRA provision also extends MA and CHIP for pregnant women and children to additional types of foreign nationals who lawfully reside in the United States as special categories of "non-immigrants" (see Attachment). This particular population should be tested for eligibility in the P-Track coverage group, and 19 -20 year old children should be tested in the F98 coverage group. These particular groups should **NOT** be tested for eligibility in the MA4F/F05 category. **This information memo clarifies procedures**

listed in A.T. 10-14.

**REMINDERS:**

- Determine eligibility for qualified immigrants and lawful non-immigrant residents (see Attachment) who are **children** under 19 years old in the appropriate **P-track coverage group** based on age and family income. Children will be placed in the MA P-track coverage groups (P06, P07, P08) and trickle to the MCHP coverage groups (P13 and P14) based on an income determination, or be referred for eligibility determination in MCHP Premium (D02 and D04).
- For **19 and 20 year olds**, determine eligibility in the **F98** coverage group.
- Qualified immigrants and lawful non-immigrant residents (see Attachment) who are **pregnant or postpartum** will have eligibility determined in the **P02 coverage group** (and will automatically trickle to the P11 coverage group if appropriate).
- For **all** qualified immigrants and lawful non-immigrants, be sure to code the ALAS screen with the status “**L**” and enter **date of entry**.

It is important to note that this immigrant population should only be tested for eligibility in the appropriate P-Track, and 19-20 year olds should only be tested in the F98 coverage group to avoid approved coverage for household members who do not fit the category definition.
